## The Issues

Welcome to the 6<sup>th</sup> Edition of the InstallationMasters™ Tool Belt Newsletter. There are several important issues that you need to be aware of. Send your comments to Ben Myers at [bmyers@archtest.com](mailto:bmyers@archtest.com).

---

### Architectural Testing offering EPA RRP Courses!

Architectural Testing has been approved by the U.S. Environmental Protection Agency (EPA) as a training provider for the Lead Paint Renovator and Dust Sampling Technician courses. We will be offering these courses at several of our facilities across the country. Please visit [www.architecturaltesting.com](http://www.architecturaltesting.com) for the upcoming dates.

In addition, we will be offering training to any InstallationMasters™ Accredited Trainers who would like to become trainers for the EPA RRP program. Contact Ben Myers or Karen Yetter at (717) 764-7700 for more information.

### WDMA critical of the EPA requiring Dust Clearance testing for all lead paint renovation projects

The EPA is considering a new requirement that all lead paint renovation projects must have a Lead Dust Clearance test performed after the project is completed. WDMA has written a letter to the EPA trying to stop them from adding this additional requirement. If you would like to see the letter, visit: <http://archive.constantcontact.com/fs089/1102482301929/archive/1103545365271.html>. You may also want to write a letter to your local representatives telling them how this will affect your business.

#### Attention All Installers:

Has your information changed?

Please keep us updated of any changes to your home address, company information or e-mail.

Please email updates to:  
[kyetter@archtest.com](mailto:kyetter@archtest.com)  
[stowndsend@archtest.com](mailto:stowndsend@archtest.com)

Or  
717-764-7700

### Installer Recertification and Trainer Re-accreditation Reminder

If your installer certification has recently expired or is about to expire, please remember to contact us about recertifying. The process is fairly simple, and will ensure that there is no lapse in your status as a certified installer. Accredited trainers must also renew their accreditation in order to continue to teach classes. Please contact Karen Yetter or Stacy Townsend at (717) 764-7700 to begin the recertification or re-accreditation process.

## Website Listings

If you would like your name and phone number listed on the website, please contact us at [installationmasters@archtest.com](mailto:installationmasters@archtest.com). We can provide links to your e-mail and your company's website, which will help homeowners get in touch with you.

**Attention Accredited Instructors** – You can list your upcoming classes on the website (even classes that you have not registered). That way, you can fill those classes. Send your tentative class dates and contact information to [installationmasters@archtest.com](mailto:installationmasters@archtest.com), and we will post them on the website.
