Installer Re-Certification is now available on-line!

You now have two options to complete your re-certification: on-line testing or mail-in testing. To become re-certified for a period of four (4) years, a Re-Certification Test must be taken. The re-certification test will be self-study and is an open-book exam. An InstallationMasters™ Training Manual may be purchased if you are unable to locate your copy.

The re-certification fee is \$150. Online payment is credit card only. The mail in registration can also be paid by check made payable to Architectural Testing, Inc. More information on recertification can be found on the webpage at www.installationmastersusa.com/installerrecertification.html.

Don't let your certification lapse! If you are within six months of your certification expiration date, please contact our office at 717-764-7700 x3735.

Winner finds 35-year old AAMA Certification Door

In honor of the 50th anniversary of AAMA's Certification Gold Label, the association held a contest for the oldest label on an in-service product. The winners were announced during the AAMA 2013 Fall Conference. First Place went to Walt Spillane of Carlsbad, CA. He submitted a label from a product manufactured by Elco Manufacturing in 1978, making that product the oldest submission in the contest. Runner-up went to Jim Snyder of Memphis, TN, who submitted a label from a product manufactured by Dorco Manufacturing in 1985. Congratulations to both of you! More information can be found at www.aamanet.org/news.
