

Welcome to the 14th Edition of the InstallationMasters™ Tool Belt Newsletter

Why Should You Join AAMA?

InstallationMasters™ was developed by the [American Architectural Manufacturers Association](#) (AAMA) - the source for performance standards, product certification and educational programs for the fenestration industry. By providing timely information about building code changes and regulatory requirements, such as the EPA's [Lead Renovation, Repair and Painting \(RRP\) Rule](#), as well as preferred pricing on AAMA education, performance standards and events, AAMA makes members stronger in the marketplace.

Window and door installers have two options to join: [Professional Membership](#), if you maintain a qualifying professional license, or [Technical Consultant Membership](#). Dues are discounted by 50 percent for certified installers. Visit www.aamanet.org/joinus to become a member and benefit from all AAMA has to offer.

Any applicant who maintains their InstallationMasters™ Program certification is eligible for a 50% discount on their AAMA membership so long as their InstallationMasters certification is valid for the entire AAMA membership year (which runs from July-June for Professional or Technical Consultant members). Details about this are available at: <http://www.aamanet.org/general/2/278/aama-membership-eligibility-requirements>. There is a checkbox to indicate that you have an InstallationMasters certification and you should provide a copy of your certificate so they can confirm your expiration date.
