

Test Security Agreement

InstallationMasters requires that Trainers complete this form in order to be given access to test books.

I understand that it is unethical for anyone involved in the Installer Certification testing to:

1. Permit individuals with less than one year of residential and light commercial window and exterior glass door installation experience to take the installer test
2. Give candidates access to test questions prior to testing
3. Reveal, copy, reproduce or use in any manner inconsistent with test security rules all or any portion of any secure test book
4. Coach candidates during testing or alter or interfere with the candidates responses in any way
5. Make answers available to candidates
6. Fail to follow security rules for distribution and return of secure tests as directed, or fail to account for all secure materials before, during or after testing
7. Fail to notify AAMA of cheating

I certify that I understand the secure and confidential nature of the InstallationMasters testing program and will comply with test security regulations.
